Communication Services

Publicity, Communication & Multimedia

**Helping you to get that
message across !**

COMPANY PROFILE

The Company

UNGANO Ltd. is a private company specialised in providing communication services to national and international organizations and companies in Tanzania. We are based in the town of Moshi at the foot of Mount Kilimanjaro.

Mission and Values

Through appropriate communication tools we want to help organisations to be understood and to lay that specific link to the people they intend to support. We are promoters of local industries and strive to develop local expertise. Our print work is done in Tanzania and we use local artisans to make T-shirts, flags and banners. We operate in a network of local consultants and organisations. Our fees are moderate and negotiable. We are tax registered and pay all our dues to the Tanzanian authorities.

Clients

The SNV-Netherlands Development Organisation, Pangani Basin Water Office, TRIAS Tanzania, PAMOJA Trust, IUCN East Africa, USAWA-Fert and many others.

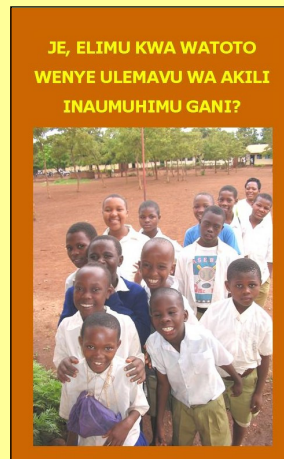

Portal Service

UNGANO Ltd has set up a portal web-site on the town of Moshi and the Kilimanjaro Region. **Kiliweb.com** has a wide range of information available from tourist-info to useful information for residents.

COMMUNICATION SERVICES

Publicity campaigns

Want to draw attention to your development or business activity? We can develop and carry out a complete campaign. Brochures, flyers, posters and T-shirts are just a few of the many opportunities. We often find the use of cartoons a very useful tool in spreading certain messages.

Brochures for an awareness campaign on educational opportunities for disabled children. Terre des Hommes

Print

Getting something well printed with a reasonable price is a painstaking process in Tanzania. Some development organisations resort to sending their work to overseas printers to have a proper job done. We have the necessary contacts to get a good job done in Tanzania. We also have experience with logo design and professional layout of publications.

Newsletters and Reports

Trying to get that difficult message into your report or newsletter? As an outsider we can help you to formulate it in such a way that it becomes attractive and understandable. We can develop your brochures by making developmental jargon understandable to your new readers.

Web pages and texts

Want to get on the web? Do you know that the web has a special language and do you speak it? We can help you to write for the web and publish your development experiences on your own web site.

Posters

Want to show where you are working and what the issues are? We have developed a number of three dimensional maps, which have been appreciated by a wide range of viewers.

Evaluation

Want to hear from a critical outsider what kind of image your organisation has? We are able to evaluate your organisation on public relation skills and make a communication plan how to improve them.

Photography

One picture says more than a thousand words. We can make that picture that says it all.
